20. Brooks	38.5%

These results were based on a nationwide survey of consumers between the ages of 10 and 65 that was conducted exclusively for SGB/Footwear Business by Leisure Trends Group of Boulder, CO. The research was conducted via the Internet among consumers who identified themselves as being interested in sports. Survey participants were supplied with a list of more than 120 major sports brands and asked about their awareness and attitudes toward those brands. Brands featured on this list are the top 20 companies that do a majority of their business in the footwear category.

The study measures responses from 1,323 Americans: 966 adults between the ages of 16 and 65, and 357 children between the ages of 10 and 15. The overall brand results were based on opinions and experiences of 1,066 respondents in order to create a sample that was representative to the U.S. population of Internet users.
